

# ***BB38D Redesigned***

***Holds a wider range of conduit and cable.***

## **Features**

- Larger capacity: The redesigned BB38D attaches 1/2" through 1" EMT or flexible conduit to metal or wood studs.
- Less Stock: B-Line BB38D supports a wider range of conduit cable than competitive products which offer two (2) separate SKUs to meet the the size requirements.
- BB38 & BB38D eliminate the need for offset bending of conduit and aligns the conduit with standard box knockouts.
- BB38 attaches 1/2" through 3/4" EMT and flexible conduit to metal or wood studs.
